

QUESTION:

IF THE REMEDIES ARE KNOWN, WHY DON'T WE ALL KNOW THEM?

Here is the only logical conclusion.
Some people or some groups do not want us to know them.

Why not?

If we knew of the remedies, there could be no lockdown,
no isolation, no masks, no damage to the economy.

In other words, some people or some groups
want what is happening.

They want the lockdown. they want us isolated.
they want us wearing masks. They want . . .

Look around and see what is happening.

The only logical conclusion:
Some people or groups don't care about us.
Our well-being is not their priority.

MOST IMPORTANT

TAKE ACTION. GET THE FACTS, THE TRUTH.

Protect yourself with VALID information.

TAKE ACTION. SHARE THE FACTS, THE TRUTH.

We all need good information to be protected from
people or groups who do not care about us.

About Cures for Covid.
About Preventatives.
About HCQ (Hydroxychloroquine),
Ivermectin, and Budesonide.

FACT ONE:

You can prevent getting Covid.

FACT TWO:

There are treatments, virtually 100% effective early
(when everyone should be treated),
up to 90% effective for very late-stage cases.

FACT THREE FOLLOWS FROM FACT TWO.
Since Covid is only slightly more dangerous
than a bad flu, it follows that:

FACT THREE:

With any of these treatments,
Covid is far less dangerous than a bad flu.

FACT FOUR:

The treatments have long been known.

HCQ:

known since 2005, rediscovered early in 2020

IVERMECTIN:

presented to the US Senate in May & Dec 2020

BUDESONIDE:

on TV and online July 2020
